

## BINWASH *STATIC*

*A fixed machine for facilities where quantities of bins are cleaned on site.*

Typically installed into facilities management, hospitals or local authorities, the fixed unit recycles water and provides effortless lifting of wheeled bins.

The Static Bin Wash uses a moulded poly tank, baffled for rigidity and safety, with stainless steel pre-filters and a self-contained water recycling facility.

Simply fix the wheelie bin on to the lifting mechanism at the rear of the machine, press the one button and the bin is lifted.

### Features
