

Designed for smaller car wash operators and lighter use, the **MINI Wash Bay Interceptor** is 1000 litres capacity and a compact size. The single stage tank is ideal for smaller wash bays where minimum settlement is required or for lower volume wash locations.

*Manufactured from HDPE (**High density polyethylene**) the below ground tank can be easily installed by your local builder with less excavation and back fill. Can be used in conjunction with a Morclean SG1 Silt Guard for lower volume car or vehicle cleaning.*

Technical Specifications

Product Code:	MINI 1000 wash bay
Height (mm):	785
Diameter (mm):	1560
Capacity (Litres):	1000
Capacity (Gallons):	200
Colour:	Black
Shape:	Round
