

Contractor 200

The contractor plus hot water high-pressure cleaner is enclosed in a strong steel frame, electric start, for easy starting, this superb hot water heavy duty high-pressure cleaner is ideal for use where a suitable electricity supply is not available.

It is self contained and requires only a fresh water supply. It is ideal for cleaning large areas such as car parks, or washing down plant and machinery.

200 bar operating pressure and a water flow rate of 1320 litres per hour is achieved with the twin cylinder water cooled diesel engine and a belt driven high pressure pump.

The belt drive transmission is designed to absorb vibration and shock loading which is often the downfall of gearbox driven pumps.

STANDARD FEATURES

- Three ceramic pistons
- Brass linear pump head with built-in by-pass valve
- By-pass thermal protection with safety valve
- 2 cylinder water cooled diesel engine with electrical start
- Integrated electric generator
- Auxiliary belt driven alternator sturdy
- Lombardini 15LD400 diesel engine (air cooled)
- Belt driven pump (1,450 RPM)
- Automatic engine RPM regulator
- Tool Socket max 1.5 kW
- Integrated detergent suction with external suction probe
- Front panel with engine function led and automatic power cut-off
- Unique tank for diesel engine and burner
- Battery included

Technical Specifications

Operating pressure: max 200 bar
Delivery rate: 1320 l/h
Motor pump type: CL5
RPM: 1600 RPM
Flow: 1 – 100 GPM
Max inlet water temperature 40 °C
Max outlet water temperature: 140 °C
Motor type/HP: LOMBARDINI 15LD400/17
Dimensions: 113x75x85cm
Weight: 220 Kg
