

PRIMA & PRIMA CD DRY VACUUM CLEANERS

These models are moulded from resilient impact resistant plastics, which make them lightweight yet robust enough for use in the toughest environments. Excellent manoeuvrability and stability is ensured by their two widely spread large twin wheel castors, and two shrouded wheels. Both models have 10 metres of cable with a moulded on plug. The cable/plug pack on the prima is easily detachable and can be changed on site without any tools. The Prima CD has the extra advantage of a manually operated cable rewind mechanism. These advanced design features make these models especially suitable for light industrial use.

FEATURES

- Twin fan motor
- Thermal switch protection against overheating
- Double filtration - Disposable bag and cloth filter
- Choice of disposable bag or reusable cloth bag
- Optional high efficiency cloth filter
- Extension wands and bent hose end made from non-magnetic 304 Grade Stainless Steel

Supplied with 32mm D11 tool kit

TECHNICAL SPECIFICATIONS
