

## FLITE SELF-CONTAINED BIN WASH

The Bin Wash FLITE from Morclean is a self-contained bin wash machine that uses 2 automated cleaning heads to clean the insides of wheelie bins without the need for manual washing with a lance by the operator. The system can be fitted to most 4x4 Pick Up Trucks (such as single cab Toyota, Mitsubishi, Isuzu, Nissan, Hilux, Ford, Ranger, L200 etc etc) as well as a flat bed van such as a drop side or chassis cab etc.

The lift mechanism is manufactured to suit the vehicle height and will lower and raise to suit the bins being lifted before the operator tips the bins with the touch of a button. Internal washing is carried out automatically by 2 powerful rotating cleaning heads that turn in two directions to ensure as much of the internal surface as possible is cleaned.

### FEATURES

- Water tank with recycling system
- Safety relief valve and unloader valve
- Two AUTOMATED wash heads
- One man single lance, option of two available if required
- 3 stage filtration with easily cleanable filter
- Easy drain/clean tanks
- Full water recirculation system
- Mounted on a custom designed frame to suit your vehicle
- Can be mounted on a variety of vehicles eg Ford Ranger Mitsubishi Hilux pick-up or similar

### SPECIFICATION

Due to continual development by vehicle manufacturers, pick-up trucks vary considerably in dimension and size – especially the newer models with rounded corners and improved design. Supply is therefore dependant on specification and dims to suit each vehicle but the Morclean FLITE is built on a standardised frame.

Prices, quotes, proposals, agreements & offers are subject to our terms of trading which are available at this link: <http://www.morclean.com/terms-of-trading.html>. Morclean reserve the right to update and amend the specification of any of our equipment & accessories in the interest of the customer.
